**Proposal J – Add the Team QB Position or Team Offense. (Select Yes or No) Did Not Pass 4-9**

Due to the limited number of QB’s. Add an additional position to the starting lineup and roster called the Team QB position. This position will provide insurance for teams in case of an injury to a QB especially during the game or if stater gets pulled during the game. An added position will be added to the starting lineup and to the roster. The scoring will be the same as the QB position however points awarded will be half the amount then what regular QB’s get. You also get points for all QB’s on that particular team.

At the end of the draft, each team will select their #1 QB. Based on that selection, the team will be awarded a Team QB position. During the season, Team QB’s will be able to be dropped, added, or traded, however, Team QB’s are not able to be kept as a Franchise Player or put on I/R for next year. Teams still can have three regular QB’s on their roster and two in their starting lineups. The starting lineup and roster will be increased by one position. This rule would only apply if the league has 10 teams or more.

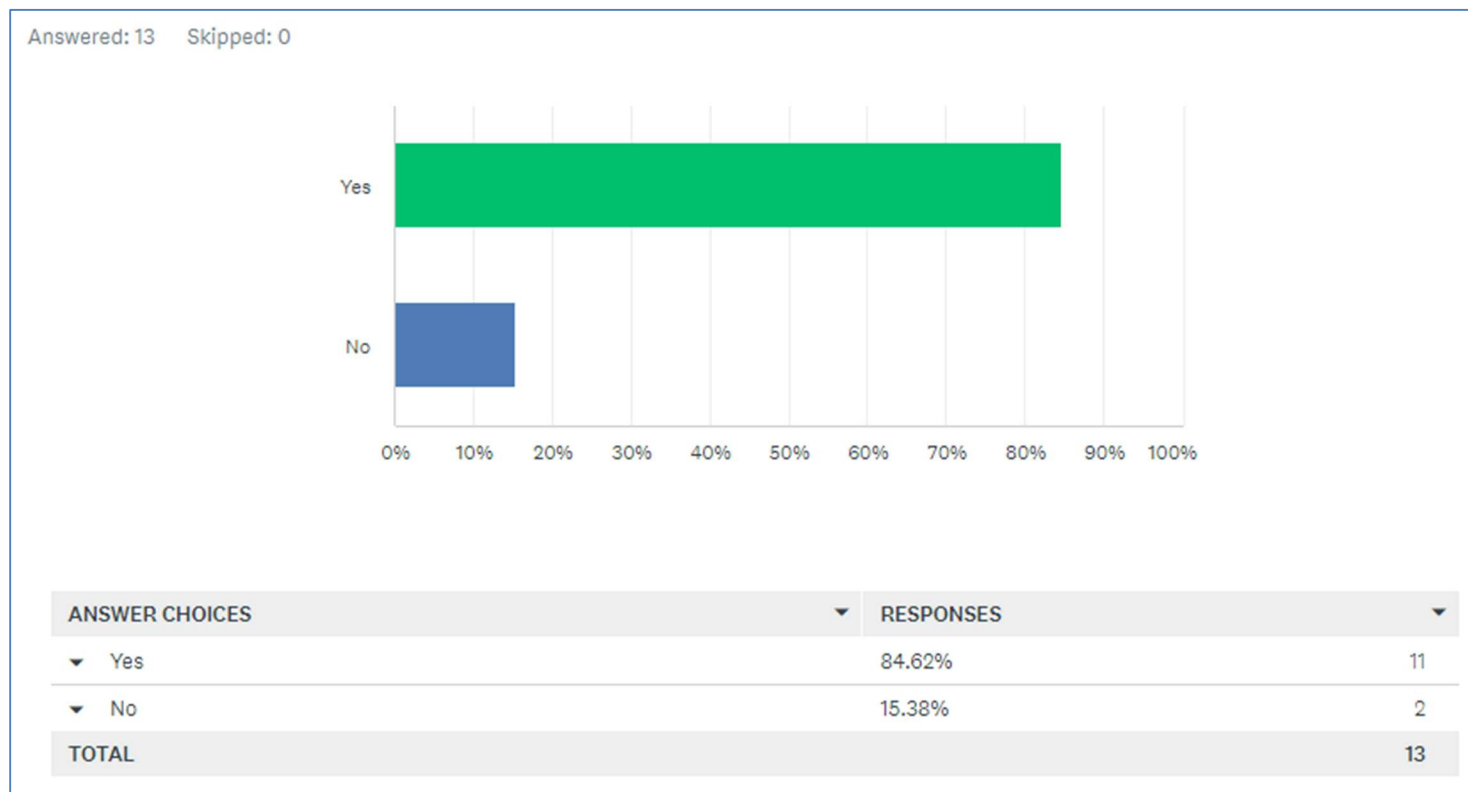

## Issue – Competition

The following proposals are aimed to improve competition.

### Proposal K – Change the Transaction Deadline (Select Yes or No) **Pass 11-2**

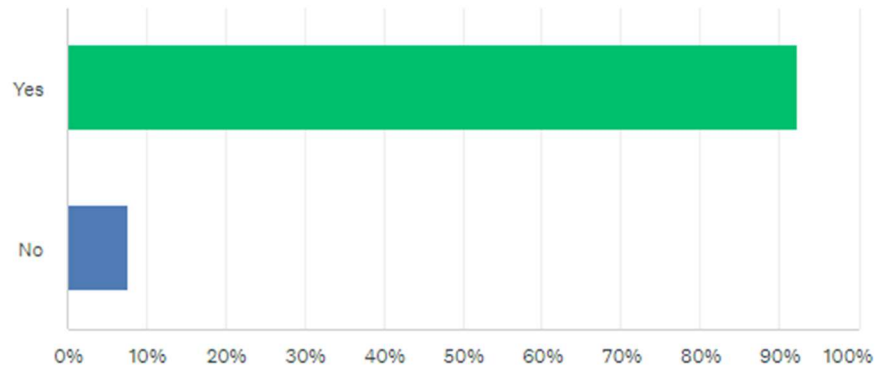

Change the Transaction / Free Agent Deadline after the final week of bye weeks to the final week of the regular season. This will allow teams to make transactions throughout the regular season. Trade deadline remains on Week 12.

### Proposal L – Limit Emergency Transactions during Playoffs (Select Yes or No) **Pass 12-1**

Limit Emergency Transactions during the playoffs to just TE's and K's. Rosters and the Injured Reserve is large enough where teams should be able to organize rosters to compensate any injuries. This would not allow a team to make an emergency transaction during the playoffs and win it all based on an emergency transaction where no other team could pick up the same player. Emergency transactions would still be allowed for TE's and K's since most teams only have one on their roster.
