Issue – Roster Size

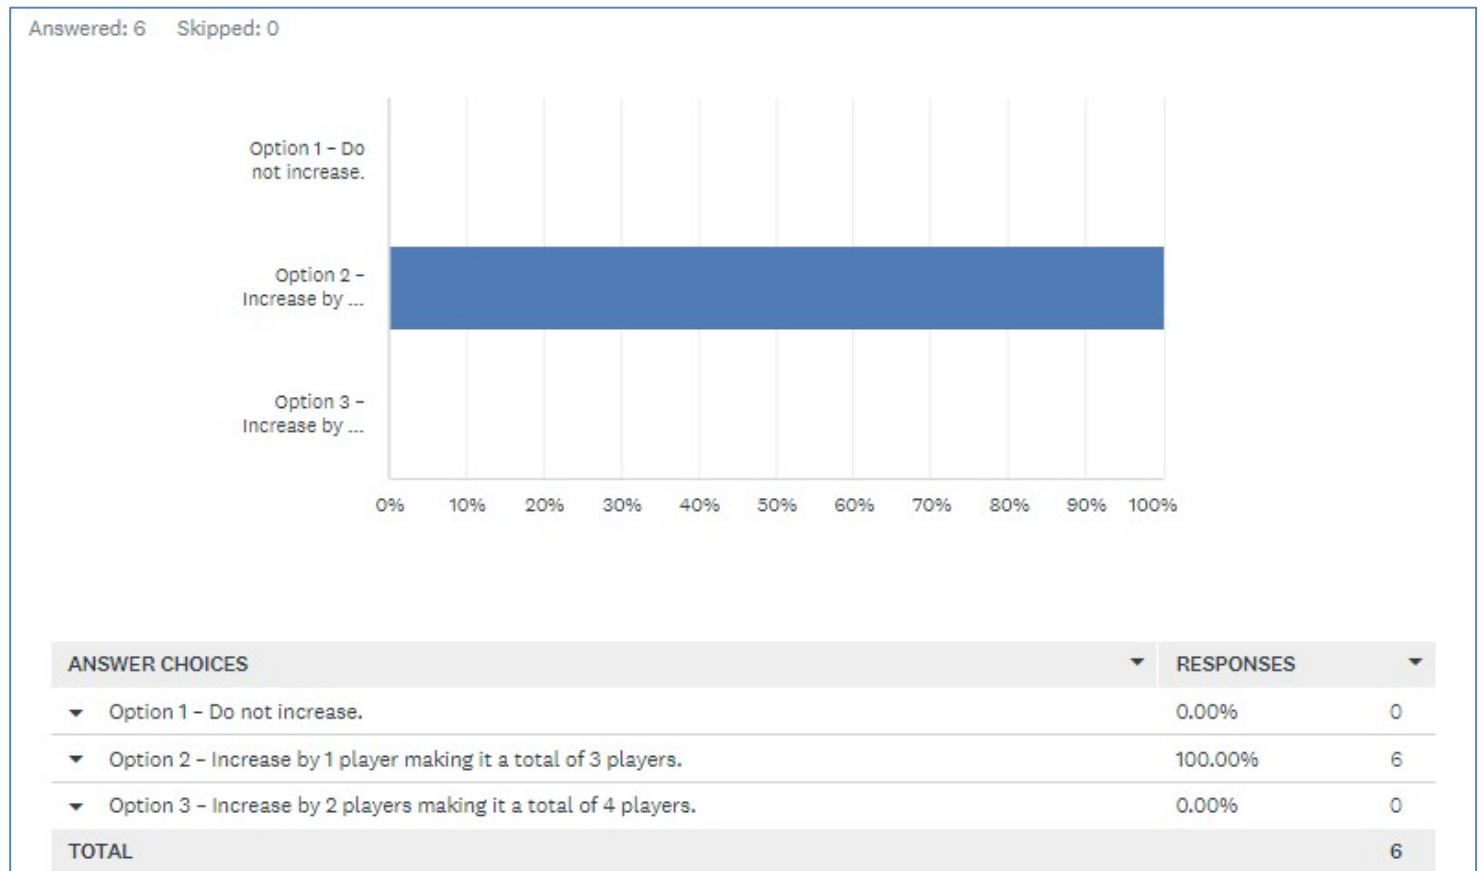

Proposal 1 – Increase Injured Reserve Size (Select One Option)

Increase the number of players that can go on Injured Reserve due to the large number of injuries that the NFL experiences. Currently you can have 2 players.

Option 1 – Do not increase.

Option 2 – Increase by 1 player making it a total of 3 players. Passed

Option 3 – Increase by 2 players making it a total of 4 players.

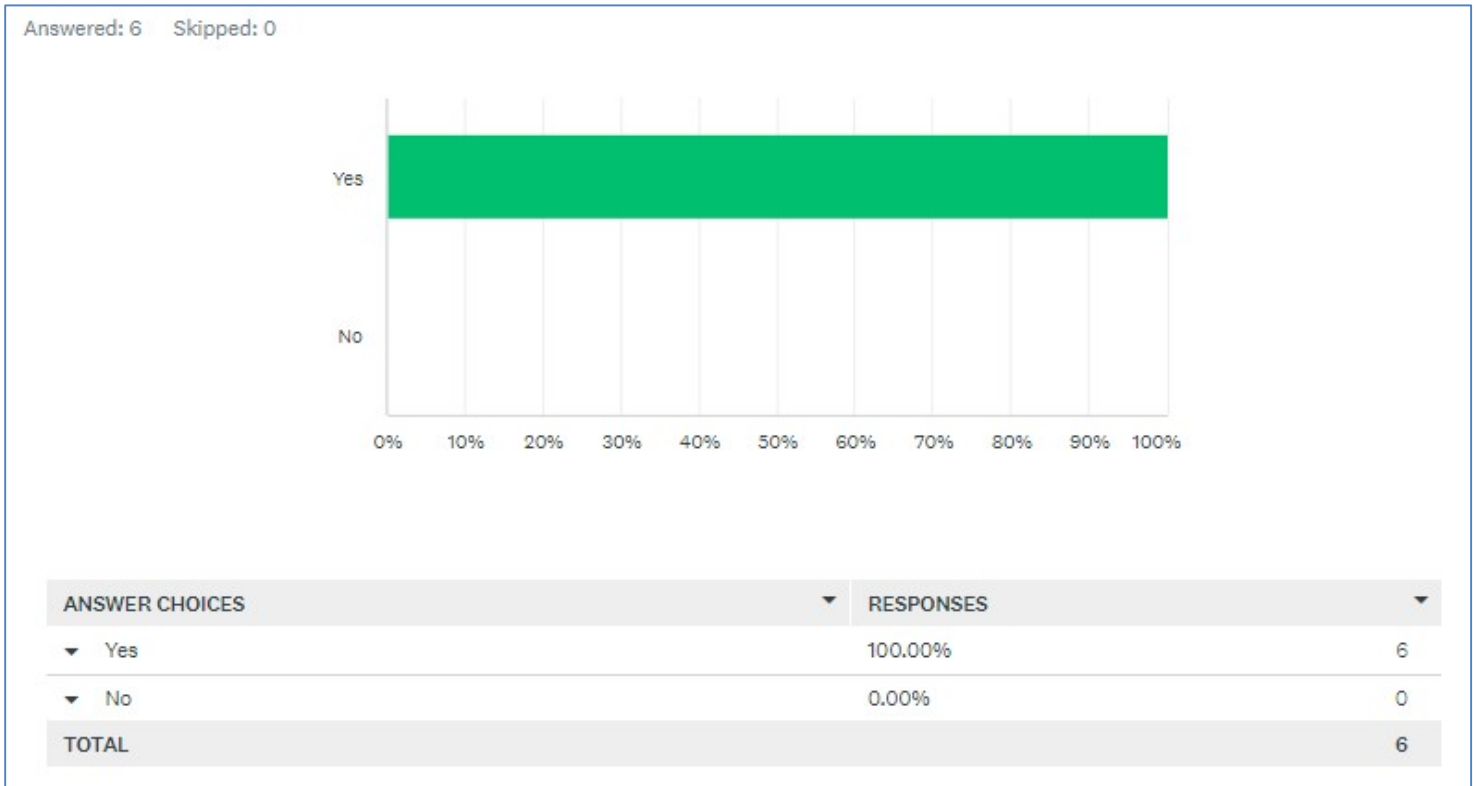

Issue – Competition

The following proposals are aimed to improve competition.

Proposal 2 – Change the Transaction Deadline (Select Yes or No) Passed

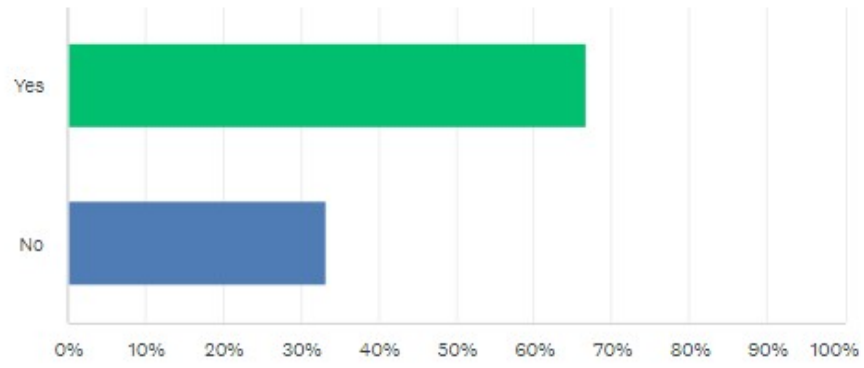

Change the Transaction / Free Agent Deadline from Week 12 to *after the final week of bye weeks*. This will allow teams to make transactions throughout all NFL Bye Weeks.

Proposal 3 – Change last week of the VFF Season (Select Yes or No) **Passed**

Change the last week of the VFF to end on Week 17 and not on week 18. The regular season will end on week 14 not on week 15. This allows teams to field complete rosters during the VFF championship weekend and all games that have playoff money at stake. This is because NFL teams sometimes rest key players the last week of NFL action in week 18.
